## 2011 GARBAGE AND RECYCLING

Starting on January 1, 2011 garbage and recycling pick up will be automated. For those of you who may not know what that is, please read carefully.

The new Carters will have a vehicle that has an extendable robotic arm that will pick up garbage and recycling containers. These containers (known as **TOTES**) will be delivered to each family in the Refuse District. Keep all containers at curbside, **not in the road**, and remove them the same day. Delivery of all Totes will begin on Monday December 20, 2010. **Do not use these Totes until after January 1, 2011.**

The schedule for pick up will remain the same:

**Garbage:** **Tuesdays for the West side of Route 32.**  
**Fridays for the East side of Route 32.**

**Bulk:** **Will be the same day as your garbage pickup. Place bulk items 4-5 feet from Totes.**

**Recycling:** **Wednesday for the entire Town. You can put paper, bottles, cans and plastics all together in the recycling Tote.**

Put all garbage, recycling & bulk out the night before your scheduled pickup.

If you have any questions, feel free to e-mail me, or call my office.

Thank you,  
Sheila Beadle  
Refuse Dept.
